COMMENTS & SUGGESTIONS

553 The overall architecture is beautiful.

I find that the apartment design very aesthetically pleasing & at the same time functionally v. good. Use of space, visual appeal, an ambience of posh surrounding are the points well looked into, in the design. Out of around 30 or so I surveyed via internet, I find this v. beautiful.

Quite a unique experience. What's growing here is an incredible project being put together with evident passion and care. The office too is fantastic! With the best wishes that you deserve richly deserve, kudos!
